FULL-STACK DEVELOPER

AS AN EFFICIENT AND DETAIL-ORIENTED DEVELOPER

Dedicated and results-oriented Full-Stack Developer with 2 years of hands-on experience in building responsive and dynamic web applications. Proficient in HTML, CSS, JavaScript, React, TypeScript, Next.js, Python, and Django. Proven ability to translate design concepts into clean and efficient code, ensuring a seamless user experience. Adept at collaborating with cross-functional teams to deliver high-quality software solutions.

CORE COMPETENCIES:

UX/UI	Performance	API Integration	Adaptability
Responsive Design	Problem Solving	Version Control	Package Managers

TECHNOLOGY STACK:

React, Next.js, TypeScript, JavaScript, HTML5, CSS3/SASS, Python, Django, Postman, Insomnia, Tailwind CSS, Bootstrap, Material UI, React-Email, Resend, Clerk, MySQL, Prisma, MongoDB, Git/GitHub, CI/CD, Vercel, Netlify, Figma.

PROFESSIONAL EXPERIENCE:

self-employed | E-Commerce

Full-Stack Developer, August 2023 – present

Achievements:

Successfully spearheaded the development of a cutting-edge Full Stack E-Commerce App, featuring a dynamic Admin Dashboard and CMS. Leveraged React and Next.js with TypeScript, ensuring robust functionality and scalability. Implemented npm for efficient library management and seamlessly integrated Stripe for pricing, inclusive of local taxes. Achieved a sleek and modern design for the Admin Dashboard, optimizing user experience. Ensured cross-device accessibility by delivering a fully responsive mobile design. Employed Tailwind CSS and SCSS to meticulously style components, striking a perfect balance between aesthetics and functionality.

Freelance | contract

React Developer, May 2023 – August 2023

Achievements:

I have successfully organized component structures, infused creative styles using Tailwind CSS and React Icons, and implemented contact forms for user feedback. My expertise extends to working with React Router, JavaScript, JSX, npm package management, Git version control, CI/CD, and Visual Studio Code.

Freelance | contract

Front-End Developer, December 2022 – February 2023

Achievements:

I excelled in creating user-friendly interfaces that effectively displayed data from tables in chart format. This involved utilizing the Chart.js library for data visualization. I also undertook the creation of a visually appealing design by integrating Tailwind CSS into the project. My role extended to API integration, and I ensured the functionality and reliability of the application through meticulous testing using tools like Postman and Insomnia. To enhance the user experience, I implemented dynamic animations using Framer Motion. Remarkably, I was able to complete the project a month and a half ahead of schedule, demonstrating both efficiency and technical proficiency in delivering quality results.
