## WORK EXPERIENCE

---

### Contract / Gausium - Robotics

Vancouver, BC

Full-Stack Developer

Mar 2022 - May 2024

- Designed and implemented new features and enhancements, and maintained existing functionality of content creation, management, and runtime systems.
- Focused on business goals by prioritizing customer satisfaction, increasing customer base by 12%.
- Developed high-quality UX/UI components from initial design/prototype to production.
- Demonstrated history of taking ownership of problems and delivering complete solutions, including implementing an Admin Dashboard.
- Actively contributed to software quality through thorough code reviews and mentorship, supporting team members.
- Streamlined codebase size, robustness, and maintainability, reducing development time by 40% and increasing overall efficiency.
- Integrated MUI (React Material UI) components into the application, leveraging built-in features to streamline feature shipping, increasing page load speed by 40%.
- Developed interactive data visualizations using Tremor and Chart.js, increasing user engagement by 30% and decreasing bounce rate by 20%.
- Built a robust backend system with Node.js to support CRUD operations, enabling seamless interaction with a MySQL database for efficient data management.
- Developed and implemented RESTful APIs to expose backend functionality, increasing frontend client interaction efficiency by 40%.

### Continental

Ukraine, Kiev

Full-Stack Developer

Dec 2020 - Jan 2022

- Led a team of 3 junior developers, providing guidance and training to enhance productivity and skill levels.
- Developed and scaled React applications, emphasizing reusable components to reduce code duplication and enhance maintainability, resulting in a 40% increase in code reusability.
- Actively participated in code reviews and continuous quality improvement initiatives to uphold coding standards and ensure high-quality deliverables.
- Managed JavaScript builds and extended Node.js REST API endpoints for efficient data retrieval and persistence, with validation performed using Postman.
- Successfully integrated Stripe for pricing functionality within the checkout process, leading to a notable 30% decrease in cart abandonment rates.
- Collaborated cross-functionally with various departments to align development efforts with organizational goals and priorities.
- Leveraged SASS and Bootstrap to craft modern and user-friendly interfaces, accelerating development speed by 40%.
- Enhanced the front-end interface to improve usability, resulting in a 25% increase in customer retention rates.

### Rozetka

Ukraine, Kiev

Front-End Developer

Jan 2019 - Feb 2020

- Managed and optimized React frontend application, streamlining Redux state management to enhance usability by a significant 20%.
- Spearheaded the creation of grid layouts, resulting in faster and cleaner UI builds, thus improving user experience and satisfaction.
- Implemented efficient data fetching mechanisms from the backend and dynamically displayed content, contributing to reduced page load times and improved performance.
- Accountable for integrating new features into applications, such as Bootstrap frameworks and Google Analytics, enhancing functionality and user engagement.

- Ensured cross-browser compatibility and consistent functionality across various platforms, including desktop and mobile, through rigorous testing and optimization, enhancing user experience.
- Proficiently utilized browser developer tools, including Chrome DevTools, to debug, diagnose performance issues, and optimize frontend code, resulting in a 22% increase in issue resolution efficiency.

## EDUCATION

---

**Central Ukrainian National Technical University**

**Ukraine, Kiev**

*Bachelor's*

## SKILLS

---

React, Redux, Next.js, TypeScript, JavaScript, Python, Django, Node.js, Express C#, ASP.NET Core Web API, HTML5, CSS/SASS, Babel, npm/yarn, Postman, Insomnia, Pega, Figma, Tailwind, Bootstrap, Material UI, React-Email, Resend, SQL/MySQL, Prisma, MongoDB, Azure DevOps, Git/GitHub, CI/CD, GoDaddy, Vercel, Agile, Scrum, Kanban
