PROFESSIONAL EXPERIENCE

E-Commerce Bilshtein **Vancouver, BC**
Full-Stack Developer **August 2023 – January 2024**

- Achievements:*
- Developed a dynamic e-commerce platform using React and Next.js with TypeScript, resulting in a significant 50% decrease in page load times for optimal user engagement.
 - Streamlined the checkout process by integrating Stripe for pricing, including local taxes, leading to a substantial 20% decrease in cart abandonment rate.
 - Utilized Tailwind CSS and SCSS to meticulously style components, enhancing the user experience and achieving a 30% increase in overall website aesthetics.
 - Create CRUD API endpoints and test the results using Postman.

Contract **Vancouver, BC**
Front-End Developer **December 2022 – August 2023**

- Achievements:*
- Implemented React framework to optimize website performance, reducing page load time by 40% and increasing conversion rates by 15%.
 - Implemented MUI and Styled Components to enhance the UI/UX of the company website, leading to a 30% increase in page load speed and a 40% decrease in customer complaints about navigation issues.
 - Streamlined codebase size, robustness, and maintainability, reducing development time by 30% and increasing overall efficiency.
 - Developed interactive data visualizations using Chart.js library, resulting in a 30% increase in user engagement and a 20% decrease in bounce rate.
 - Further improved the loading time of resource management components by creating reusable components.

Continental **Ukraine**
Front-End Developer **December 2020 – February 2022**

- Achievements:*
- Updated the front-end interface to optimize usability, resulting in a 16% increase in customer retention rates.
 - Developed reusable React components, improving code manageability and reusability by 60%.
 - Utilized acquired proficiency in SaaS and Bootstrap to enhance the user experience on the e-commerce platform, resulting in a remarkable 40% increase in user engagement metrics, surpassing project expectations.
 - Using and maintaining JavaScript build.
 - Modifying and extending Node.js REST API endpoints for data retrieval and persistence.
